Subject - Re. Diversion of the grant of Rs 1,000 sanctioned for the improvement of Kandagadde circle at Narasimharajapura, for effecting further improvements to the shandy maidan at the place

---

I have the honor to state that the Dewan, during his tour in this District in the year 1939, was pleased to observe that the Kandagadde road junction at Narasimharajapura town may be improved A Government grant of Rs 1,000/- has therefore been allotted for this work out of the special grant of Rs two lakhs announced by His Highness The Executive Engineer, Kadur Dist sent an estimate for Rs 1,000 prepared in accordance with the plan furnished by the Government Architect It was stated by the Executive Engineer that portions of two shops had to be acquired and dismantled for forming the square The President, Municipal Council, was asked to get possession of the said land free of cost or if it were not possible, to take necessary proceedings to acquire the portions The estimate for Rs 1000/- doesnot include Cost of acquisition 2) The President, Municipal Council, Narasimharajapura, states in his report dated 3-8-42, that the owners of the shops on either side of the Kandagadde square are not willing to give the land required, free of cost and that the Municipal Council have also resolved that they are unable to bear the cost of acquisition of the land in question. This subject was also discussed at the Officers' Meeting held at Chikmagalur on 19th July 1942. The Executive Engineer and the

p t o.

President of the Municipal Council opined that the grant may be utilised for a more urgent purpose instead of incurring a heavy expenditure for the acquisition of the land to improve the square

It is stated that detailed plans and estimates for the improvement of the shandy maidan are under preparation I discussed the matter with the Executive Engineer and the Municipal Council and I request that necessary orders of Government may be kindly obtained for utilising the grant referred to above, for improving the shandy maidan at arasi harajapura.

Re - The Drainage Scheme at Narasimharajapura

With reference to your letter No L 1832 dated 7-9-1945 on the above subject, I have the honour to state as follows -

1 The town of Narasimharajapura has not yet been surveyed and the comprehensive scheme is not available To meet the urgent requirements, an estimate costing Rs 2000/- has been prepared for the construction of sylte pattern drains in the congested areas of the town

2 Tenders were called for the work and the lowest quotations received from Mr B Rangana, Contractor, Narasimharajapura, is for Rs 4350/- including E T P and other charges The Minor Municipal Council, Narasimharajapura have resolved on 7-10-1945 that the work may be taken up and got executed through the agency of the Public Works Department and that the levy of the Establishment Tools and Plant Charges of Rs 222/- may be waived in view of the slender finances of the Municipality

3 A sum of Rs 2000/- has already been deposited by the Narasimharajapura Municipal Council and the following proposals are made for meeting the balance of the cost

(1) A drainage grant of Rs 1500/- has been sanctioned in G O No L 82-5-3/41 68-44-21 dated 20-2-1945 This amount may be utilised for the work in question

(2) The grant of Rs 1000/- sanctioned for the improvement of the Shandy Maidan may be diverted for the drainage work as already recommended

4 I request that sanction of Government may be kindly obtained for the revised estimate for Rs 4350/- prepared on the basis of the lowest quotation received and to the proposals referred to above for meeting the cost of the estimate

The connected records are enclosed for favour of reference

was called for in your letter No.L.6999/M1.103-42-18 dated 13-1-44 as to whether the said grant may not be diverted towards the drainage scheme of the town. As separate grant for the improvement of the Standy maidan was sanctioned in G.O. No.L.6345-8/ml.69-43-13 dated 22-12-1943, it has been reported in this office letter dated 21-1-44 that the amount in question may be utilised towards the execution of the drainage scheme at the place.
